

Trading Using Khwezi

Meta Trader 4

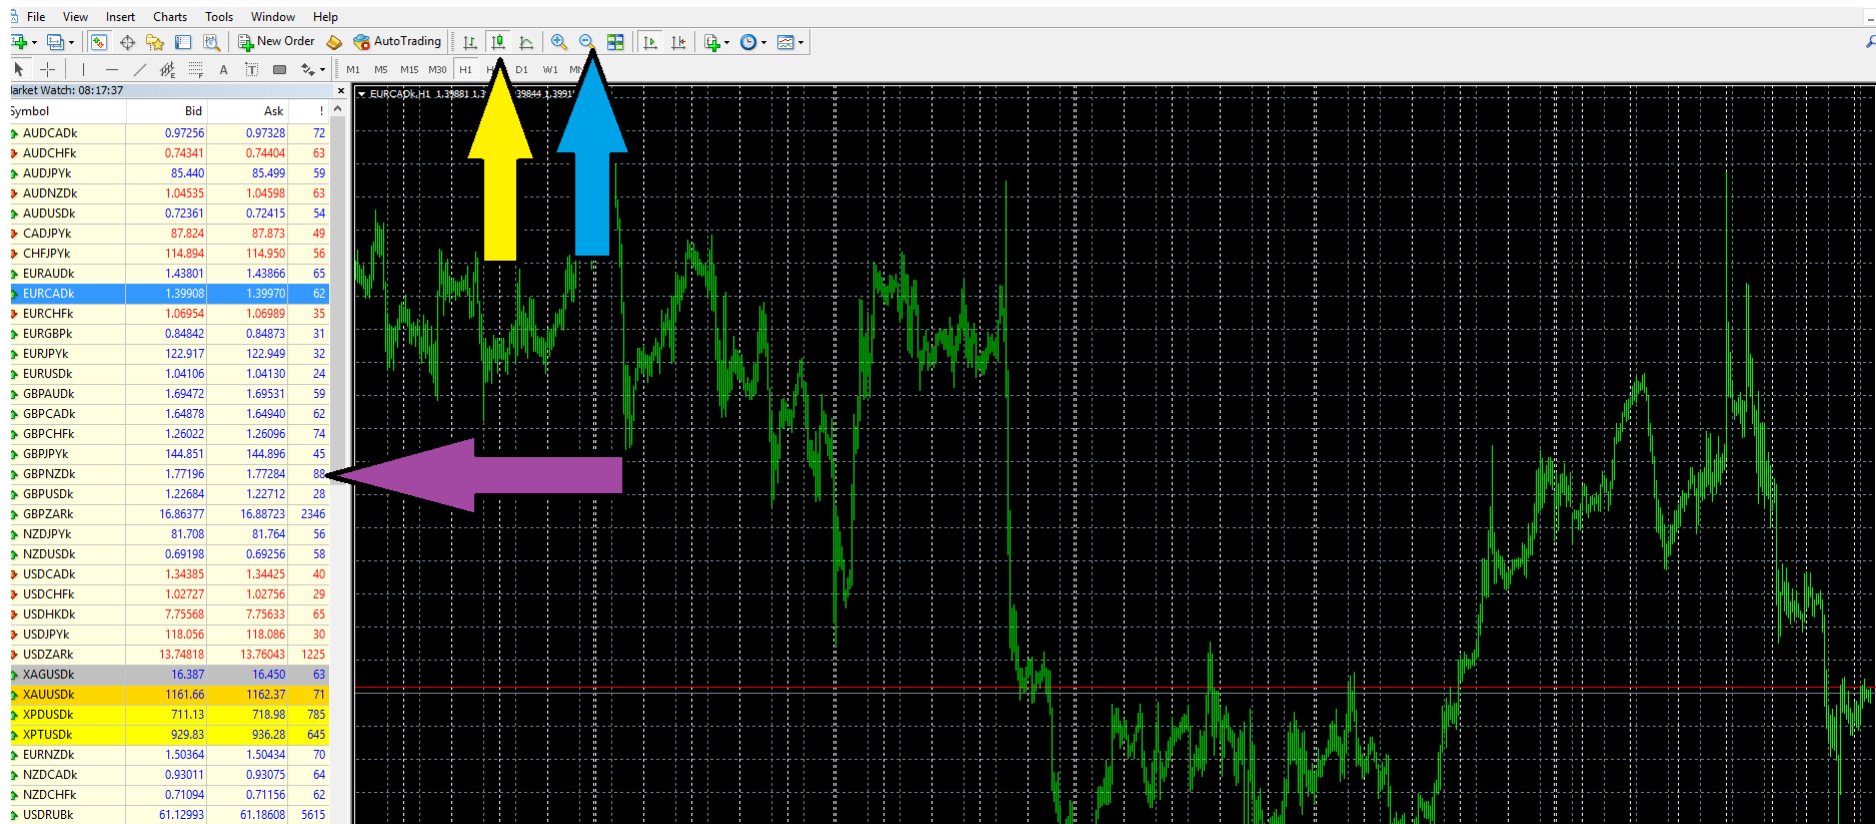

Getting Started on Meta Trader 4

1. Open your Meta Trader 4. Go to the top left hand corner click on File, then select 'Login to Trade Account'.

2. Type in your trading account number and password (This was emailed to you) Demo and Live accounts both trade on the same platform, so make sure you are on the correct server. For the live server select KhweziFinancial-Live2 (94.236.7.229). For demo trading make sure to select KhweziFinancial-Demo server.

3. (Yellow) Click on Candle button, this changes the default of a bar chart to a candle chart.
4. (Blue) Zoom in and out buttons, allow you to zoom out to get a better picture of market direction, zoom in allows you to see candle formation.
5. (Pink) To see all the instruments to trade. Go into your market watch. Then any ware in the market watch right click on your mouse. And select show all. This will show all the instrument's available to trade.

To place a trade

Right click on the instrument you want to trade and click “New Order “and this window will appear.

The screenshot shows an 'Order' window for the instrument .US500.a. The window is divided into two main sections. On the left is a price grid with a vertical axis labeled from 2083.07 to 2083.90. The current price is 2083.10. On the right is a form for entering order details. The Symbol is .US500.a, US 500 Index Cash#N-.US500. The Volume is 1.00. Stop Loss and Take Profit are both set to 0.00. The Type is Market Execution. Below the form are two buttons: 'Sell by Market' (red) and 'Buy by Market' (blue). A yellow bar is visible below the buttons. At the bottom, a warning message states: 'Attention! The trade will be executed at market conditions, difference with requested price may be significant!'.

Symbol	Volume	Stop Loss	Take Profit	Type
.US500.a, US 500 Index Cash#N-.US500	1.00	0.00	0.00	Market Execution

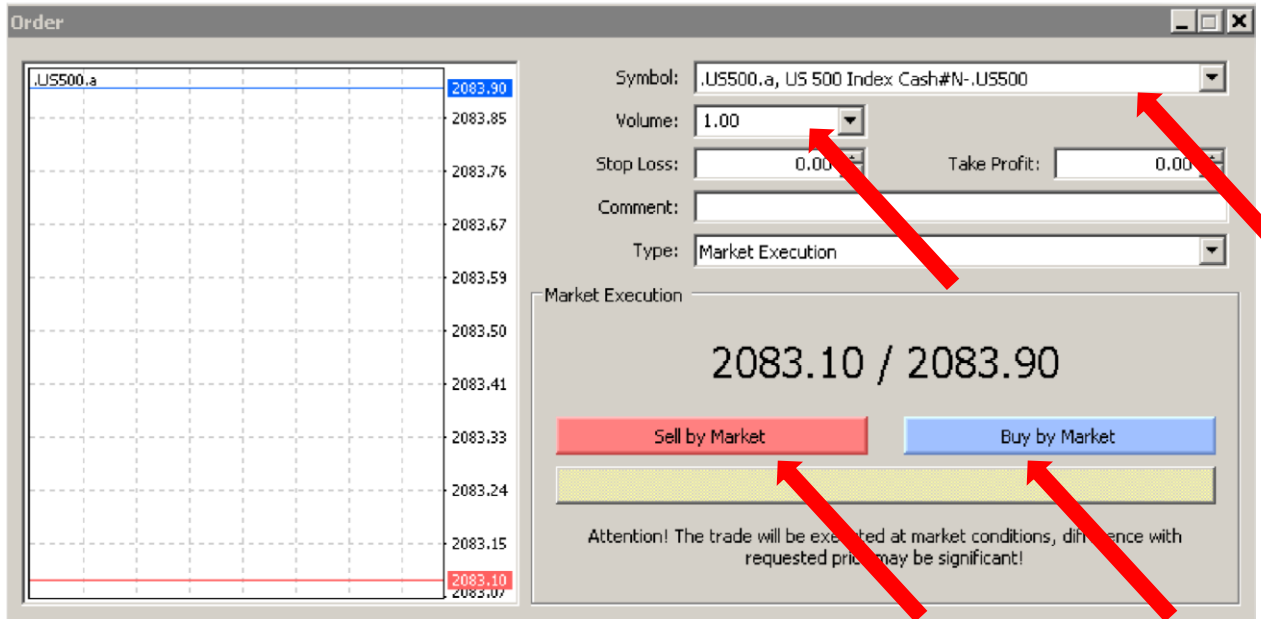

Market Execution

2083.10 / 2083.90

Sell by Market Buy by Market

Attention! The trade will be executed at market conditions, difference with requested price may be significant!

IT IS IMPORTANT TO PAY ATTENTION TO THIS WINDOW, AS A MISTAKE HERE WILL COST YOU MONEY.

The four most important things you need to check before trading, “pushing the buy or sell button”

- 1. Symbol:** is this the instrument you want to trade?
- 2. Volume:** is this the amount I want to trade.
- 3. Buy or sell:** I buy (expecting the price to rise) or Sell (expecting the price to fall).
